# CUBE MOSAIC

**Cube Mosaic** proposes a series of collections which mix and match different lines of fabrics and shapes to create striking surfaces. The proposed collections explore the contrast between matt and shiny, the juxtaposition of differently crafted surfaces with lavish textures, combinations with metallic and iridescent finishes and proposals in which colour is a bold, defining element. A composite creation reminiscent of its execution and production, it is the most complex collection in terms of research and production.

## TECHNICAL DETAILS

Thickness: **12mm & 18mm**

Size: See Table

Raw Material: **Fabric + Foam**

# WOOD PANELS

Wood product application in interiors is nearly infinite and so we have been stretching the boundaries and looking for inspiration to create a product that would not only organically complement any dwelling but would also be made of sustainable timber whilst using our top notch wood processing technology Hence **GLO Wood Panels** - a unique product where every tile is slightly different in colour and grain, but put together create an adorable pattern never seen before.

**Wood Panels** are not only durable and practical, they are unchallenged as feature wall material or simple accent detail at home, in the office, restaurant, shop or a hotel. Any interior environment can be enhanced by using mosaic wood tiles. Modern, contemporary, classic and traditional interiors will all find a way to benefit from the features derived from mosaic wood tiles.
